# CRANACH<sup>®</sup>

## MASTERING EVERYDAY WELLNESS

It started in 2016—with a belief that the bathroom should be more than just a space; it should be an experience. Inspired by European craftsmanship, we established our first research branch in Germany, where precision and artistry shaped our foundation. The name CRANACH pays homage to Lucas Cranach, a master of detail—just like the work we set out to create.

We began with faucets, not just as functional pieces, but as carefully crafted statements of quality. Every detail—from the shape of the spout to the finish—was thoughtfully engineered to deliver more than just utility. As we honed our craft, our ambitions expanded. We ventured into shower fixtures, designing them with a deeper purpose: to integrate the healing benefits of wellness into every home. This marked a significant milestone in our journey, setting the stage for CRANACH to become a holistic solution for creating spaces that nurture both body and mind.

Today, we've expanded our offerings to a full suite of bath solutions, each thoughtfully crafted to bring a sense of luxury, balance, and style to every home. From the way our showers envelop you in soothing water to the simple elegance of our bath accessories, we create environments that invite relaxation, rejuvenation, and a touch of tranquility.

Design. Innovation. Craftsmanship. It's what drives us forward—creating timeless, beautifully engineered spaces that inspire and restore, every single day. Through it all, our mission remains the same: dedicated to bringing the best to every home.
