INSTALLATION

1. Insert the entire faucet spout through the mounting hole on the countertop, then secure it using the tailpiece nut assembly.

2.1 Insert the side handles, hand shower base, and other deck-mounted components through their respective mounting holes, then secure each one from below with its corresponding mounting hardware.

2.2 Insert the diverter body upward through the countertop and connect it to the handle assembly.

3. Attach the handle assembly and tighten the hex screw.

4.1 Connect the blue inlet hose to the cold water angle valve and the red inlet hose to the hot water angle valve and the hot handle accordingly.

4.2 Pass the handheld shower hose through the base, and connect it to both the handheld showerhead and the diverter.

4.3 Connect the remaining hoses to the corresponding ports as shown in the diagram, ensuring each connection is fully tightened.

4.4 Finally, open the angle valves and the handle to check for any water leakage at the connection points.
